PROJECTS

#MoodFlix

GitHub: <https://github.com/bjennings90/Movie-Finder>

Tools: JavaScript, HTML, CSS, Materialize CSS, Two Server-Side API's, GoogleFonts, and GitHub

A website that helps you decide on a movie based on your mood, this was a collaborative project with two classmates

- Integrated backend end API with IMDB for movie recommendations based on Emojis
- Collaborated with classmates to manage the work and efforts for the projects

Thought Alert

GitHub: <https://github.com/Mykaelas/Thought-Alert>

Tools: JavaScript, Insomnia, MongoDB/Mongoose, Node.js, Express

A backend project that focuses on social media interactions, such as being able to like and comment on posts.

- Created and integrated API for implementing interaction features
- Used Insomnia to ensure the API is working properly

Have You Met Linda

GitHub: <https://github.com/Mykaelas/Have-You-Met-Linda>

Tools: HTML, CSS, JavaScript, Node.js, inquirer, Jest, GitHub

A project that helps to manage all of the employees in a company by department and salary.

- Utilized Inquirer to prompt users to input information
- Incorporated Jest to write and run tests and ensure the app is working as expected

CERTIFICATION

Rice University, Houston TX

Full Stack Developer Certificate

November 2022

- Completed CRUD and social media-related projects with classmates
- Reevaluated project direction and timelines for team during development cycle
- Provided knowledge transfer to classmates regarding tech concepts and tools

EDUCATION

American Graduate University, Covina, CA

Masters of Business Administration in Acquisition and Contracting

University of the Incarnate Word, San Antonio, TX

Bachelors of Art in Music
